

What is a Privacy Impact Assessment?

The *Municipal Government Act* ("MGA") sets out mandatory requirements relating to personal information held by municipalities and municipal bodies. The MGA also requires that municipalities protect the confidentiality of personal information, and the privacy of the individual who is the subject of that information. This includes protecting the information from theft, loss and unauthorized access to, use of, disclosure, copying or disposal of the information.

A privacy impact assessment is a tool to identify risks and mitigation strategies associated with the use of personal information. It is an essential tool for ensuring compliance with the privacy requirements set out in the MGA and is a building block of a good privacy management program.¹

When Should I Complete a Privacy Impact Assessment?

You should complete a privacy impact assessment ("PIA") for all new systems, projects, programs or activities. PIAs should also be completed when any significant changes are being contemplated to projects, programs or systems. There are a variety of PIA templates available online². This PIA template was created by the Nova Scotia Freedom of Information and Protection of Privacy Review Office and it incorporates elements of a number of existing templates.

Notice to Users

This document is intended to provide general information only. It is not intended nor can it be relied upon as legal advice. As an independent agency mandated to oversee compliance with *FOIPOP, MGA* and *PHIA* the Freedom of Information and Protection of Privacy Review Office (Review Office) cannot approve in advance any proposal from a municipality. We must maintain our ability to investigate any complaints and to provide recommendations in response to these complaints. The contents of this document do not fetter or bind this office with respect to any matter, including any complaint investigation or other matter respecting which the Review Officer will keep an open mind. It remains the responsibility of each municipality to ensure that they comply with their responsibilities under the relevant legislation. Visit us at: <u>http://foipop.ns.ca/</u>

Privacy Impact Assessment

Project Name: _____

Document Version, Review and Approval History

Version	Author	Nature of Change	Date

A. General Information

- 1. Name of Program or Service
- 2. Name of Department, Branch and Program Area
- 3. Name of Program or Service Representative
- 4. Contact Information

B. Description

- **1. Description of the Initiative:** Provide a summary of the program, project activity or system, describe its purposes, goals and objectives. Explain the need for the new program, project or system and its benefits.
- **2. Scope of this PIA:** Explain what part or phase of the initiative the PIA covers and what it does not cover.
- **3. Elements of Information or Data**: List the personal information data elements involved in the initiative. This could include citizen's name, age, address, educational history, work status, health information, financial information, photos, comments on a blog, license numbers or hiring data.
- **4. Description of Information Flow (include text and diagram)**: Attach an information flow diagram showing how information will be collected and disclosed as a result of the initiative. See **Appendix A** for a sample information flow diagram.

If your initiative will not involve the collection, use or disclosure of personal information, you can stop here and submit this document to your privacy officer.

C. Collection, Use and Disclosure of Personal Information

- 1. **Limiting Collection, Use and Disclosure:** Privacy is a fundamental right of citizens and so any limitation on the privacy of citizens should be carefully analyzed to ensure such limitation is warranted. If your project involves highly sensitive personal information, a broad collection of personal information or a serious impingement on privacy³ answer the following four questions before proceeding:
 - **a. Is the measure demonstrably necessary to meet a specific need?** At a minimum, the objective must relate to societal concerns which are pressing and substantial in a free and democratic society. To be "demonstrably necessary" the municipality should explain the rational connection between the specific need and the project.
 - **b.** Is it likely to be effective in meeting that need? Provide empirical evidence to support the initiative.
 - **c.** Is the loss of privacy proportional to the need? Explain how the collection, use and/or disclosure of personal information will be undertaken in the least privacy invasive manner possible. Minimizing the number of data elements collected, limiting access to the data and short retention periods are all examples of reducing the privacy invasive impact.
 - **d.** Is there a less privacy invasive way of achieving the same end? Explain what other less privacy invasive methods have already been tried to meet the identified need.

Based on this analysis you may decide you do not need to collect, use or disclose personal information for your project. You may decide to reduce the data elements (you need to go back and redo part B before proceeding) or you may determine that you can justify the scope of your collection, use and/or disclosure and so proceed to question 2.

2. **Legal Authority for the Collection, Use and Disclosure of Personal Information:** For each of the collections, uses and disclosures identified, evaluate your organization's legal authority and complete the following table. Refer to **Appendix B** for an example of an authorities' summary table. Refer to **Appendix C** for a summary of the authorities to collect, use and disclose personal information under the *Municipal Government Act.*

Personal Information Authorities Summary				
	Description/Purpose	Туре	MGA Authority	

³ Typically projects such as video surveillance, collection or use of GPS data, any covert surveillance, use of bio metrics etc. should be considered highly sensitive and will require this preliminary analysis.

3. Compliance with Personal Information International Disclosure Protection Act:

PIIDPA requires that personal information in the custody or control of a public body (which includes municipalities) shall not be stored or accessed outside of Canada, subject to limited exceptions (s.5(1)). Set out here whether or not there will be any proposed storage or access outside of Canada and if so, describe what PIIDPA exceptions apply. See **Appendix D** for a summary of the PIIDPA exceptions.

Personal Information International Disclosure Protection Act Authorities				
Description/Purpose	PIIDPA Authority			

D. Correction, Accuracy and Retention of Personal Information

1. Correction and Accuracy:

- a. How is an individual's information updated or corrected?
- b. If information is not updated or corrected (for physical, procedural or other reasons) please explain how it will be annotated?
- c. If personal information will be disclosed to others, how will the municipality notify them of the update, correction or annotation? (See s. 484 of the MGA for further information on correction and accuracy obligations).

2. Retention:

- a. Does your initiative use personal information to make decisions that directly affect an individual? If yes, please explain.
- b. Do you have a records retention and/or disposition schedule that will ensure that personal information is kept for at least one year after it is used in making a decision directly affecting an individual?

E. Security of Personal Information

- **1. Reasonable Security:** The MGA requires that municipalities protect personal information by making reasonable security arrangements against such risks as unauthorized access, collection, use, disclosure and disposal of personal information.
 - a. **Administrative safeguards** Describe administrative safeguards (such as policies, training, contract provisions, consent forms, etc.).
 - b. **Technical Safeguards** Describe technical safeguards (such as passwords and user ID, authentication, encryption, firewalls & intrusion detection, secure transmission, disaster recovery).
 - c. **Physical Safeguards** Describe physical safeguards (such as secure access, laptops secured to desk, alarm systems).
 - d. **Auditing** Describe auditing capability and strategies (audit logs, records of user activity, proactive and focused audit capacity).

If your initiative involves the creation of a new system, consider completing a security threat and risk assessment.

2. Access Matrix: Personal information should only be used and disclosed as permitted under the MGA. Access to personal information must be limited to those employees whose job responsibilities require that they access the personal information. Attach a copy of the user access matrix. A user access matrix will list all of the position types (e.g. clerical, manager of investigations, finance director) across one axis and all of the personal information types (or file types or data modules) across the other. The matrix will identify by position which individuals will have access to the identified data. See **Appendix E** for an example of an access matrix.

F. Risk Mitigation

Assess the impact on privacy, confidentiality and security of personal information as a result of the new program or service or change & make recommendations for mitigation of privacy risks. See **Appendix F** for examples of risks and mitigation strategies.

Risk Mitigation Table

	Risk	Mitigation Strategy	Likelihood	Impact
1				
2				
2				
3				
4				

G. Action Plan

The purpose of this section is to provide an action plan to implement the recommendations listed in section F to reduce the privacy risks that have been identified. This section will provide a mechanism to track the recommendations, as well as describe responses to the recommendations of the PIA. Ensuring the recommended mitigations are implemented according to the action plan is the program area's responsibility, and may be followed-up by the privacy officer at any point.

Privacy Risk Action Plan				
Mitigation Strategy	Steps Required & Responsible Officer	Date to be Achieved		

PIA Review Date: _____

PIAs require regular review to ensure that the system, project or program has not substantially changed and to ensure that mitigation strategies have been properly implemented. In addition changes in other areas (such as technology or the implementation of other related programs) may create new risks that should be identified and mitigated. Typically the review date is selected based on the action plan – within six months of the final required completion dates is a good standard to use.

Appendix A: Sample Information Flow Diagram

Example:

Appendix B: Sample Authorities Summary Table

Using the example given in Appendix A, the table below lists the authorities.

Personal Information Authorities Summary					
Description/Purpose Type MGA Author					
1.	Email received from client requesting service	Collection	483(1)(c)		
2.	Service request transferred to service provider	Disclosure	485(2)(c)		
	contracted by municipality				

Appendix C: Summary of Authorities Under the MGA

	Collection			
483(1)(a)	The collection of the information is expressly authorized by or pursuant to an enactment			
	(identify the enactment and section)			
483(1)(b)	The information is collected for the purpose of law enforcement (review the definition of			
	law enforcement in s.461 to ensure it applies)			
483(1)(c)	The information relates directly to, and is necessary for, an operating program or activity of			
	the municipality			
	Use			
485(1)(a)	Use is for the purpose for which the information was obtained or compiled, or for a use			
	compatible with that purpose (to determine if a use is compatible review the requirements			
	set out in s. 485(3))			
485(1)(b)	The individual the information is about has identified the information and has consented to			
	the use (such consent should generally be in writing, dated and identifying the information)			
485(1)(c)	The use is for a purpose for which the information may be disclosed to the municipality			
	pursuant to s. 485 (check the disclosure list below)			
405(2)()	Disclosure			
485(2)(a)	In accordance with s. 485 or as provided pursuant to another enactment (identify the			
405(2)(1)	enactment and section)			
485(2)(b)	The individual the information is about has identified the information and consented in			
405(2)(a)	writing to its disclosure			
485(2)(c)	For the purpose for which it was obtained or compiled, or a use compatible with that			
	purpose (to determine if a disclosure is for a compatible purpose, review the requirements set out in s. 485(3))			
485(2)(d)	For the purpose of complying with an enactment or with a treaty, arrangement or			
	agreement made pursuant to an enactment (identify the enactment and section and attach			
	the agreement if applicable)			
485(2)(e)	For the purpose of complying with a subpoena, warrant, summons or order issued or made			
	by a court, person or body with jurisdiction to compel the production of information			
485(2)(f)	To an officer or employee of a municipality if the information is necessary for the			
	performance of the duties of, or for the protection of the health or safety of, the officer or			
	employee			
485(2)(g)	To a municipality to meet the necessary requirements of municipal operation			
485(2)(h)	For the purpose of collecting a debt or fine owing by an individual to the municipality or			
	making a payment owing by the municipality to an individual			
485(2)(i)	To the auditor for audit purposes			
485(2)(j)	To a representative of the bargaining agent who has been authorized in writing by the			
	employee, whom the information is about, to make an inquiry			
485(2)(k)	To the Public Archives of Nova Scotia, or the archives of a municipality for archival			
405(2)(1)	purposes			
485(2)(l)	To a municipality or law-enforcement agency in Canada to assist in an investigation			
485(2)(n)	If the responsible officer determines that compelling circumstances exist that affect			
405(2)()	anyone's health or safety			
485(2)(na)	For a research purpose as set out in s. 485(4)			
485(2)(0)	So that the next of kin or a friend of an injured, ill or deceased individual may be contacted			
485(2)(p)	For research archival or historical purposes as provided in section 485(4) and 485(5)			

Appendix D:Authority to Disclose Personal Information Outside of CanadaPersonal Information International Disclosure Protection Act

		Application of the Act
4	PIIDPA does not a	apply to records listed in s. 4 which include:
		aterial or material that is available for purchase by the public
		is a matter of public record
		Access and Storage Outside Canada - Authorities
5(1)(a)	Consent	The individual the information is about has identified the information and has
		consented, in the manner prescribed by regulation, to it being stored in or
		accessed from outside Canada.
5(1)(b)	PIIDPA	The information is stored or accessed outside of Canada for the purpose of
	Disclosure	disclosure allowed under PIIDPA (see list below)
5(1)(c)	Permission	The head of the public body has allowed storage outside of Canada pursuant to
- ()(-)		s. 5(2):
		• If the head considers the storage or access is to meet the necessary
		requirements of the public body's operation, (subject to any restrictions
		or conditions the head considers advisable)
		• The head must report the access or storage decision to the Minister within
		the timeline set out in the Act (s. 5(3))
		Disclosure Outside Canada - Authorities
9(2)(b)	Consent	The individual the information is about has identified the information and
		consented, in writing, to its disclosure inside or outside Canada
9(2)(c)	Enactment	In accordance with an enactment of the Province, the Government of Canada
		or the Parliament of Canada that authorizes or requires its disclosure
9(2)(d)	Agreement	In accordance with a provision of a treaty, arrangement or agreement that
	0	authorizes or requires its disclosure and is made under an enactment of the
		Province, the Government of Canada or the Parliament of Canada
9(2)(e)	To head	To the head of the public body, if the information is immediately necessary for
		the performance of the duties of the head
9(2)(f)	To employee	To an employee of the public body and the information is immediately
		necessary for the protection of the health or safety of the employee
9(2)(g)	To legal	To legal counsel for the public body, for use in civil proceedings involving the
	counsel	Government of the Province or the public body
9(2)(h)	Debts	To collect moneys owing by an individual to the Province or public body or for
		making a payment owing by the Province or public body
9(2)(i)	Motor vehicle	For the purpose of licensing or registration of motor vehicles or drivers or
		verification of motor vehicle insurance, registration or drivers' licences
9(2)(j)	Compelling	Where the head of the public body determines that compelling circumstances
	circumstances	exist that affect anyone's health or safety
9(2)(k)	Next of kin	So that next of kin or a friend of an injured, ill or deceased individual may be
		contacted
9(2)(l)	Research	For research purposes in accordance with s. 10
	Public	To a provincial or public body archive in accordance with s. 11
	Archives	
9(3)	Law	A public body that is a law enforcement agency may disclose to another law
	enforcement	enforcement agency in Canada or in a foreign country under an agreement or
		enactment of Canada or the province
9(4)	Temporary	The head of a public body may allow an employee to transport personal
		information outside Canada temporarily if the head considers it is necessary
		for the performance of the duties of the employee to transport the information
		in a computer, cell phone or other mobile device.

Appendix E: Sample Access Matrix

The following example is for a database intended to manage by-law complaint information. Access to personal information must be strictly limited to those needing the information to carry out their job duties. Depending on how duties are assigned, it may be the clerk's responsibility to input the initial information identifying the home owner, complainant and the complaint summary. If this is not true, then limit the clerk's access to those data elements required.

The Mayor and Council would not typically have access to a database of this nature and so have not been assigned any access rights in the matrix below. The matrix assumes that the home owner and complainant identity information is not contained in the by-law complaint summary nor in the enforcement outcome. The investigation notes could, of course, contain a variety of information including personally identifiable information of the complainant and home owner.

	Home owner Information ⁴	Complainant Information	By-law complaint summary	Investigation Notes	Enforcement Outcome
Clerical	\checkmark	\checkmark	~		✓
CAO	✓		\checkmark		✓
Manager of	✓	\checkmark	✓	✓	✓
investigations					
Investigator	\checkmark	\checkmark	~	\checkmark	✓
Mayor &					
Council					

⁴ Identification information would include name, address and other contact information. This module may be common across a variety of databases.

Appendix F: Sample Risks and Mitigation Strategies

You will need to adopt a scale to measure likelihood and impact. High, medium and low will do or you can choose a numerical scale for greater subtlety in choice.

	Risk	Mitigation Strategy	Likelihood	Impact
1	Authorized user views record for personal reasons	 Log all read only and change activity Monitor logs regularly, conduct spot audits and ensure audit capacity in response to complaints Oath of employment and confidentiality agreements Training 	Likelihood increases with more users	 More sensitive data results in higher impact More data exposed by incident results in higher impact
2	Service provider fails to report privacy breach to municipality.	 Contractual terms: require reporting within 24 hours impose penalties for failure to report and late reporting require the service provider to log all read only and change activity and to monitor the logs regularly permit the municipality to conduct audits and to review service provider audit logs 	 Experience with the service provider may help determine this Severity of consequences for service provider may lower the likelihood 	Same considerations as above
3	Client's personal information is compromised when transferred to the service provider	Transmission is encrypted and over a secure line	Low – depending on the quality of the encryption	Same as above
